## Patient in the driving seat!

Marleen Kaatee

Founder & President PSC Patients Europe

**PSC**  
**Patients**  
**Europe**

Manchester 2016

## Added-value of patient involvement in science, e.g.

- Unique perspective on their needs & desires
- Out-of-the-box thinking
- Your expertise will be strengthened by the patient's expertise

⇒ Many perks, including:

- Improving outcomes
- Better mutual understanding
- Improving efficiency
- Better CT participation & retention

## How?

- Educated patients out there (EUPATI Patient Experts)
- From Phase Zero
- Just ask!
- Facilitate & educate

Why aren't you involving patients in your research?
